7 Reasons why Papoid is superior to Pepsin

1 Digestive Power

"In other words, Papoid possesses the combined powers of the Salivary, Gastric and Pancreatic ferments."
(KILMER—Paper read before New Jersey Pharmaceutical Association.)

2 Acts Throughout Entire Alimentary Canal

"An additional advantage of Papoid (in diphtheria) is that it helps Nature to digest whatever food there may be in the alimentary canal." (LOVE, Prof. Clin. Med. and Diseases of Children, Marion Sims Coll. Med., St. Louis.)

3 Stimulates Natural Digestion

"Pepsin often relieves a present difficulty; but Papoid, in addition, places the stomach in condition to digest the next meal. It is far better to make the stomach do its own work. Pepsin makes the stomach lazy; Papoid does not." (LARRABEE, Prof. Hospital College of Medicine, Louisville, Ky.)

4 Acts in Acid, Alkaline, or Neutral Media

"But much more convenient than this will be found the dusting of a minute portion of Papoid beneath the protective strips. This succeeds well, because Papoid acts best in a concentrated medium of any reaction whatever, pepsin only in a dilute acid solution." (MORTON, on Leg Ulcers, read before Philadelphia County Medical Society.)

5 Acts on All Kinds of Food. Can be Combined with Antiseptics

"The physiological actions of Papoid as a digestive agent have been thoroughly established. It acts upon albuminoids, hydrating them and converting them into peptones. Converts starch with great promptness, the ultimate product being maltose. It emulsifies fats. An important point is, it can be given in conjunction with true antiseptics, even corrosive sublimate in dilute solutions does not interfere with its digestive powers."
(WOODBURY, Prof. Clinical Medicine, Medico-Chirurgical College, Philadelphia, Pa.)

6 Acts in the Intestines

"I have accomplished more with Papoid than I was ever able to accomplish with the best pepsin. Papoid does especially well in gastro-intestinal catarrh and colitis." (DIXON, Prest. Kentucky State Medical Society.)

VIN MARIANI

"THE STANDARD PREPARATION OF ERYTHROXYLON COCA."

CAREFUL, continued testing, by upwards of seven thousand practitioners in America, whose written opinions over their signatures (in our possession) are fully in accord and clearly prove the efficacy and merits of "VIN MARIANI," may be thus summarized:

"Diffusible stimulant and tonic in anæmia, nervous depression, sequelæ of childbirth, lymphatism, tardy convalescence, general 'Malaise,' and after wasting fevers.

"Special reference to the nervous system, in all morbid states, melancholia, etc.

"Tonic in laryngeal and gastric complications, stomach troubles.

"All cases where a general toning or strengthening of the system is needed.

"The only tonic stimulant without any unpleasant reaction, and may be given indefinitely, never causing constipation."

N.B.—This Wine has been found always uniform and reliable, owing to the selection of finest ingredients and the greatest accuracy in its manipulation. When prescribing, therefore, the Medical Profession are strongly advised to specify "VIN MARIANI," in order to avoid the substitution of imitations often worthless and consequently disappointing in effect.

Please specify VIN MARIANI.

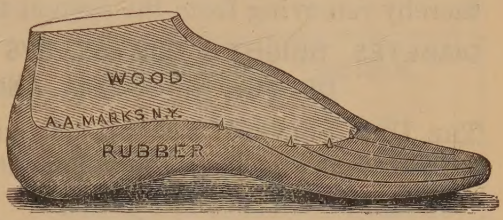
LECTURE—CONVALESCENT CASES.

A Clinical Lecture by Professor Lewis A. Sayre, at Bellevue Hospital.

CASE 6.—Mary Cashen. Here is a little girl I feel proud to show you. Look at that smiling face compared with what it was when she came here several months ago. The operation was performed three months ago. You will recollect that this girl came here with chronic disease of the knee-joint which she had had ever since she was seven months old. From the age of seven months on she remained with her knee in a state of chronic inflammation; it was plastered, and issued, and fired, and iodined, and she took internal remedies all the time until within a few weeks of the time when she came here, but she never had extensions and counter-extensions to overcome reflex muscular contraction. The muscles contracted in such a way as to produce a complete luxation backward of the leg upon the thigh, so that the head of the tibia lay in the intercondylic notch.



You will recollect that the leg and foot were models of symmetry and beauty, never having been stepped upon or never having worn a shoe. The disease had so thoroughly involved the joint that an extension alone could not save the limb. If a resection had been performed the leg would have been too short to walk upon, and on that account I decided to perform an amputation upon the knee-joint, leaving the patella to form the end of the stump.

Mr. A. A. Marks, the artificial-limb maker, made this little girl an artificial leg. *He makes*, as I think, *altogether the best artificial leg* I have ever seen, simply because of its durability and simplicity. The foot has no joint at the ankle, and this is where the great advantage comes in.

The core of the foot is a small solid piece of wood in the shape of a foot, only much smaller. This core is covered with a thick layer of sponge rubber, so that from the instep to the toes and back to the heel the foot is simply rubber. The elasticity of the toes and heel compensates for the absence of the ankle-joint, and in walking there is none of the jarring, dot-and-go-one walk, so characteristic of the jointed leg. *With this rubber foot she can walk with the stealthy, noiseless tread of a cat.* The spring and elasticity of the foot is a positive comfort to the patient.

A Theory Demonstrated in Practice,—

THE URIC SOLVENT.

For NEUTRALIZING and ELIMINATING URIC ACID from the BLOOD and thereby removing from the system the disorders caused by it, viz:

DIABETES, BRIGHT'S DISEASE, CYSTITIS, SCIATICA, GOUT, RHEUMATISM, DROPSY, NEURALGIA, AND DISEASES OF THE HEART.

THE URIC SOLVENT is a rational and very effective remedy for all RENAL DISORDERS and those derangements and diseases arising from a defective action of the kidneys. Physicians will find in the URIC SOLVENT a GREAT HELPER in the treatment of the above complaints, it being free from all poisonous drugs. Dispensed by all reliable apothecaries.

PRICE, $1.00 PER BOTTLE.

FRELIGH'S TABLETS,

(Cough and Constituent),

FOR THE PREVENTION AND CURE OF

PULMONARY PHTHISIS.

FORMULÆ.

Cough Tablets.

EACH TABLET CONTAINS

Morph. Sulph. ($\frac{1}{30}$ gr.), Atropiæ Sulph. ($\frac{1}{300}$ gr.), Codeia ($\frac{1}{10}$ gr.), Antimony Tart. ($\frac{1}{25}$ gr.), Ipecac, Aconite, Pulsatilla, Dulcamara, Causticum, Graphite, Rhus-tox, and Lachesis, fractionally so arranged as to accomplish every indication in any form of cough.

Constituent Tablets.

EACH TABLET CONTAINS

Arsenicum ($\frac{1}{30}$ gr.), Precipitate Carb. of Iron, Phos. Lime, Carb. Lime, Silica, and the other ultimate constituents, according to physiological chemistry (normally), in the human organism, together with Caraccas, Cocoa, and Sugar.

PRICE, THREE DOLLARS PER DOUBLE BOX.

Containing sufficient Tablets of each kind to last from one to three months, according to the condition of the patient.

A Connecticut physician writes:

"I am now using your Tablets on a patient (young lady), who has had three quite severe hemorrhages the week previous to the beginning of the same. She has taken one box only, has had no return of the hemorrhage, and has gained four (4) pounds since beginning treatment, besides all rational symptoms have improved wonderfully. I will add that I had tried Ol. Morrh., Syr. Hypophos. Co., etc., with no apparent benefit."

A Virginia physician writes:

"Enclosed find Postal Note for another double box Freligh's Tablets. I used the sample box in three cases, with decided benefit in one, slight improvement in second, and while they did not improve the third case, it being in very advanced stage, there was an amelioration of the distressing symptoms."

A Massachusetts physician, in practice 25 years, writes:

"Send me two double boxes Freligh's Tablets. I have tried the sample box with most excellent results."

A Michigan physician writes:

"I am more than pleased with them. They have not disappointed me once. Dr. C., for whom I ordered a box writes me that he is much improved, and speaks in praise of them. He has genuine Tuberculosis, and while I do not think he can recover, yet I firmly believe the Tablets will prolong his life."

SPECIAL OFFER.

While the above formulæ have been in use, in private practice, over 30 years, and we could give testimonials from well-known clergymen, lawyers, and business men, we prefer to leave them to the unbiased judgment of the profession with the following offer: On receipt of 50 cents, and card, letter-head, bill-head, or other proof that the applicant is a physician in active practice, we will send, delivered, charges prepaid, one of the regular (double) boxes (retail price, Three Dollars), containing sufficient of each kind of Tablets to test them three months (in the majority of cases) in some one case. Card, letter-head, or some proof that the applicant is a physician in active practice, MUST accompany each application. Pamphlet, with full particulars, price-list, etc., on request.

A PHOSPHORIZED

CEREBRO-SPINANT.

(FRELIGH'S TONIC.)

Our Special Offer is still open, to send to any physician, on receipt of 25 cents, and his card or letter-head, half a dozen samples, delivered, charges prepaid. Each sample is sufficient to test it for a week in one case.

As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

PEACOCK'S BROMIDES

(SYR: BROM: COMP: PEACOCK.)

Each fluid drachm represents 15 grains of the Combined C. P. Bromides of Potassium, Sodium, Calcium, Ammonium and Lithium.

USES: EPILEPSY, UTERINE CONGESTION, HEADACHE, AND ALL CONGESTIVE, CONVULSIVE AND REFLEX NEUROSES.

This preparation produces results, which can not be obtained from the use of commercial Bromide substitutes.

DOSE.—One to two FLUID drachms, in WATER, three or more times a day.

PEACOCK'S FUCUS MARINA

(ELIX: FUCI MAR: PEACOCK.)

From Sea Weed. **Uses: Malaria, Phthisis, Etc.**

An ALLY of quinine—quinine CHECKS the Malarial Chill; Fucus Marina ELIMINATES the Malarial CAUSE; and thus prevents the recurrence of the Chill *after* it has been *checked* by quinine.

An INVALUABLE REMEDY in the treatment of Phthisis—it arrests the decay of lung tissue, diminishes the fever, lessens the cough, abates the soreness in the lungs, improves the appetite, and impedes the progressive emaciation.

DOSE.—One Teaspoonful IN WATER, four times a day.

CHIONIA FROM CHIONANTHUS.

Uses: Biliousness, Jaundice, Dyspepsia, Constipation, and all Diseases Caused by Hepatic Torpor.

CHIONIA stimulates the Liver and restores it to a healthy condition, without debilitating the system by Catharsis; does not purge, per se, but under its use the Liver and Bowels gradually resume their normal functions.

DOSE.—One Fluid Drachm three times a day.

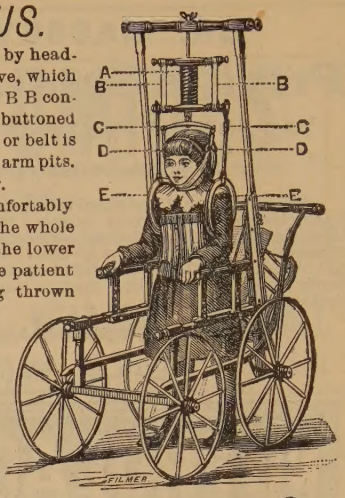
DR. MEIGS CASE'S SPINAL APPARATUS.



Examine cut carefully. The patient, whether child or adult, is suspended by head-rest D embracing chin and occiput. This is hooked on the swivelled beam above, which is attached to spiral spring A. The spring is re-inforced by two web elastics B B connecting the two whiffletrees. Leather straps with adjusting buckles at C are buttoned to the ends of the lower bar and hold the wood rings E, to which the corset or belt is secured. The arms pass freely through the rings with no lifting under the arm pits. The corset or belt supports part of the weight and steadies the body in walking.

Of course the suspension is only partial, no more than the patient can comfortably endure, and the traction is continually varied by the motion of the spring. The whole suspensory apparatus can be raised by the thumb-screw at top, also by slots in the lower end of the upright spars on each side. With the seat thrown back, as in cut, the patient moves the carriage to and fro, turning easily about inside, or the seat being thrown forward, may sit at ease, and play, or read, or be otherwise employed, or may be moved by an attendant, all the while in suspension. A patient suffering from acute Pott's disease, or spinal irritation, and unable to sit up without distress, will remain for hours in this apparatus with perfect comfort, and even fall asleep in the seat by reason of relief from pain. Dr. Case's Apparatus has practically proved itself useful in almost every form and stage of spinal disease and curvature, and for defective innervation and lack of muscular power.

APIOLIN-CHAPOTEAUT.

(The true active principle of Parsley).

In DYSMENORRHŒA

Dr. Richard Hill before the Washington Medical Society, January 1891, stated that it was decidedly the most reliable agent he had yet used in spasmodic and congestive dysmenorrhœa.

In AMENORRHŒA

Fordyce Barker found the active principle of parsley of great value in Amenorrhœa, given daily a week antecedent to expected menstruation. (*Shoemaker's Materia Med.*)

Dispensed in spherical capsules of 20 centigrammes. Dose: 2 daily.

OL. SANTAL-MIDY.

For gonorrhoea and all forms of urethritis. It replaces copaiba, cubebs, and other remedies, without producing eructations, offensive odor or diarrhœa. The discharge is reduced to a slight oozing in forty-eight hours. It cures the most obstinate cases of cystitis and inflammation of the neck of the bladder.

Dr. Posner stated before the Berlin Medical Society: "The best form was the French preparation known as ***Santal-Midy.***—*Medical Record.*

Dose: 6 to 12 capsules daily. Original bottles contain 40 capsules.

THE PERFECTION OF COD LIVER OIL PREPARATIONS.

We believe that this preparation is more easily digested and assimilated than any preparation of Cod Liver Oil in the market. Try it in a case where Cod Liver Oil could not be retained.

PANCROBILIN.

RECENT INVESTIGATIONS have quite clearly proven that in most conditions of ill health the bile-producing power of the liver is the first to become abnormal, causing the bile and pancreatic secretions to become defective in quality and quantity.

PANCROBILIN is designed to remedy these intestinal and hepatic derangements. To meet the varied conditions which may be associated with this disturbance in bile-producing power and the imperfect pancreatic action, it has been found that no single formula could be made which would reach every case.

Consequently four kinds of pills are manufactured so that these abnormal conditions can be more effectually reached, and it is confidently believed that, by a judicious selection from these pills or liquid preparations, almost every physiological abnormality can be most effectually treated.

The use of Pancrobilin Preparations is rapidly increasing. We believe that bile will be classed in a few years as one of the most valuable digestive secretions.

If you have not already received a copy of our book, "An Abstract of the Symptoms," we will be pleased to forward one.

Platt's Chlorides,

The True Disinfectant.

Eleven years of practical daily use, by tens of thousands of intelligent physicians, and by hundreds of thousands of careful housekeepers, has established beyond doubt the value, the usefulness, and the superiority of Platt's Chlorides.

An odorless liquid, clean, stainless, powerful, efficient, and economical, it is peculiarly adapted to all the sanitary needs of the sick-room, and the hygienic demands of the household.

Platt's Chlorides is sold in quart bottles only, and by nearly every apothecary in every city, town or village in the United States. Should there be any practicing physician anywhere who may not as yet personally know its value, a sample with descriptive circulars, etc., will be gladly furnished free. JOHNSTON'S FLUID BEEF.

CHEMICAL ANALYSIS By WM. HARKNESS, F.C.S.L., Analytical Chemist to the British Government.

LABORATORY, Somerset House, London, Eng.

I have made a very careful chemical analysis and microscopical examination of **Johnston's Fluid Beef**, and find it to contain in every 100 parts:

Moisture,	26.14	
Albumen and Gelatine,	21.81	Nitrogenous or
Fibrine in a readily soluble form,	37.48	flesh-forming food.
Ash or Mineral Matter,	14.57	
	100.00	

"The mineral matter is rich in phosphates. The microscopical examination shows the **Fluid Beef** to contain good, sound beef, ground to a very fine powder. There is not the slightest trace of fungus, spores, or any other organism which would tend to produce decomposition. I consider this a most valuable preparation, *combining, as it does, a concentrated extract of Beef with the solid beef itself*,—the latter being in a form easily digested."

DERANGEMENTS OF THE LIVER.

HORSFORD'S ACID PHOSPHATE

has been used with good effect in diseases of the liver, and biliary disorders, where an acid treatment is indicated, and has especially proved a desirable medium to employ in chronic hepatic affections. By its action it stimulates the liver and promotes an increased flow of bile.

The Acid Phosphate is far superior to the nitro-muriatic acid of the pharmacopœia, in that it serves to assist digestion and promotes in a marked degree the healthful action of the digestive organs.

Dr. O. G. CILLEY, of Boston, says: "I give it in all cases where there is derangement of the liver, with the most remarkable success. With my patients it has agreed wonderfully."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

PHILADELPHIA, Sept. 14, 1891

Typewriter Improvement Co.

Gentlemen: I cannot too strongly express my satisfaction with the instrument which I have used in all my office work for nearly three years. In addition to the correspondence all over the Union as secretary of this association, I may add the same work as Secretary of the State Medical Society of Pennsylvania, and my reports as Medical Inspector of the State Board of Health, and, as I am much given to literary work in various ways, I have written with it during that time an immense amount of work. I take it with me to all the meetings of the societies, in fact in all my trips, for which its compact size makes it eminently suitable and convenient. To all who are tired of wielding the pen, but are compelled as the slaves of the pen to employ that or a substitute, I commend the World, knowing that once it becomes their companion they will feel lost without it.

Yours very truly,

WILLIAM B. ATKINSON.

Elixir of Opium.

AN INVALUABLE DISCOVERY IN THE PREPARATION OF OPIUM.

It contains all the valuable medicinal properties of Opium in natural combination, to the exclusion of all its noxious, deleterious, useless principles upon which its bad effects depend. It possesses all the sedative, anodyne, and antispasmodic powers of Opium: To produce sleep and composure, to relieve pain and irritation; nervous excitement and morbid irritability of body and mind; to allay convulsive and spasmodic actions, etc; and being purified from all the noxious and deleterious elements, its operation is attended by no sickness of the stomach, no vomiting, no costiveness, no headache, nor any derangement of the constitution or general health. Hence its high superiority over Laudanum, Paregoric, Black Drop, Denarcotized Laudanum, and every other Opiate preparation.

CAUTION.

On account of its large sale, spurious articles are offered in bulk. The genuine is sold only in vials of about 7 drachms, with yellow wrappers and signature of Jno. B. McMunn.

Physician's All-Requisite Time- and Labor-Saving Account-Book.

BEING A LEDGER AND ACCOUNT-BOOK FOR PHYSICIANS' USE, MEETING ALL THE REQUIREMENTS OF THE LAW AND COURTS.

Designed by WILLIAM A. SEIBERT, M.D , of Easton, Pa.

Probably no class of people lose more money through carelessly kept accounts and overlooked or neglected bills than physicians. Often detained at the bedside of the sick until late at night, or deprived of even a modicum of rest, it is with great difficulty that he spares the time or puts himself in condition to give the same care to his own financial interests that a merchant, a lawyer, or even a farmer devotes. It is then plainly apparent that a system of bookkeeping and accounts that, without sacrificing accuracy, but, on the other hand, ensuring it, at the same time relieves the keeping of a physician's book of half their complexity and two-thirds the labor, is a convenience which will be eagerly welcomed by thousands of overworked physicians. Such a system has at last been devised, and we take pleasure in offering it to the profession in the form of The Physician's All-Requisite Time- and Labor- Saving Account-Book.

There is no exaggeration in stating that this Account-Book and Ledger reduces the labor of keeping your accounts more than one-half, and at the same time secures the greatest degree of accuracy. We may mention a few of the superior advantages of The Physician's All-Requisite Time- and Labor- Saving Account-Book, as follows :—

First—Will meet all the requirements of the law and courts.
Second—Self-explanatory; no cipher code.
Third—Its completeness without sacrificing anything.
Fourth—No posting ; one entry only.
Fifth—Universal; can be commenced at any time of the year, and can be continued indefinitely until every account is filled.
Sixth—Absolutely no waste of space.
Seventh—One person must needs be sick every day of the year to fill his account, or might be ten years about it and require no more than the space for one account in this ledger.
Eighth—Double the number and many times more than the number of accounts in any similar book; the 300-page book contains space for 900 accounts, and the 600-page book contains space for 1800 accounts.
Ninth—There are no smaller spaces.
Tenth—Compact without sacrificing completeness; every account complete on same page—a decided advantage and recommendation.
Eleventh—Uniform size of leaves.
Twelfth—The statement of the most complicated account is at once before you at any time of month or year—in other words, the account itself as it stands is its simplest statement.
Thirteenth—No transferring of accounts, balances, etc.

To all physicians desiring a quick, accurate, and comprehensive method of keeping their accounts, we can safely say that no book as suitable as this one has ever been devised. A descriptive circular showing the plan of the book will be sent on application.

The Medical Bulletin Visiting-List or Physicians' Call Record.

ARRANGED UPON AN ORIGINAL AND CONVENIENT MONTHLY AND WEEKLY PLAN FOR THE DAILY RECORDING OF PROFESSIONAL VISITS.

Frequent Rewriting of Names Unnecessary.

THIS Visiting-List is arranged so that the names of patients need be written but ONCE a month instead of FOUR times a month, as in the old-style lists. By means of a new feature, a simple device consisting of STUB OR HALF LEAVES IN THE FORM OF INSERTS, the first week's visits are recorded in the usual way, and the second week's visits are begun by simply turning over the half-leaf without the necessity of rewriting the patients' names. This very easily understood process is repeated until the month is ended and the record has been kept complete in every detail of VISIT, CHARGE, CREDIT, etc., and the labor and time of entering and transferring names at least THREE times in the month has been saved. There are no intricate rulings; not the least amount of time can be lost in comprehending the plan, for it is acquired at a glance.

THE THREE DIFFERENT STYLES MADE.

The **No. 1 Style** of this List provides space for the DAILY record of seventy different names each month for a year; for physicians who prefer a List that will accommodate a larger practice we have made a **No. 2 Style**, which provides space for the daily record of 105 different names each month for a year, and for physicians who may prefer a Pocket Record-Book of less thickness than either of these styles we have made a **No. 3 Style**, in which "The Blanks for the Recording of Visits in" have been made into removable sections. These sections are very thin, and are made up so as to answer in full the demand of the largest practice, each section providing ample space for the DAILY RECORD OF 210 DIFFERENT NAMES for two months; or 105 different names daily each month for four months; or seventy different names daily each month for six months. Six sets of these sections go with each copy of No. 3 STYLE.

SPECIAL FEATURES NOT FOUND IN ANY OTHER LIST.

In this No. 3 STYLE the PRINTED MATTER, and such matter as the BLANK FORMS FOR ADDRESSES OF PATIENTS, Obstetric Record, Vaccination Record, Cash Account, Birth and Death Records, etc., are fastened permanently in the back of the book, thus reducing its thickness. The addition of one of these removable sections does not increase the thickness more than an eighth of an inch. This brings the book into such a small compass that no one can object to it on account of its thickness, as its bulk is VERY MUCH LESS than that of any visiting-list ever published. Every physician will at once understand that as soon as a section is full it can be taken out, filed away, and another inserted without the least inconvenience or trouble. *Extra or additional sections will be furnished at any time for 15 cents each or $1.75 per dozen.* This Visiting-List contains calendars, valuable miscellaneous data, important tables, and other useful printed matter usually placed in Physicians' Visiting-Lists.

Physicians of many years' standing and with large practices pronounce it THE BEST LIST THEY HAVE EVER SEEN. It is handsomely bound in fine, strong leather, with flap, including a pocket for loose memoranda, etc., and is furnished with a Dixon lead-pencil of excellent quality and finish. It is compact and convenient for carrying in the pocket. Size, 4 x 6⅞ inches.

PSYCHOPATHIA SEXUALIS,

Dr. R. von KRAFFT-EBING,

Professor of Psychiatry and Neurology in the University of Vienna.

Authorized Translation of the Seventh German Edition

BY

CHARLES GILBERT CHADDOCK, M.D.,

Assistant Medical Superintendent Northern Michigan Asylum; Fellow of the Chicago Academy of Medicine.

Prof. von Krafft-Ebing's study of the psychopathology of the sexual life was, when first published, a small monograph; but in the seven editions through which it has passed so rapidly it has received so many additions and been made to cover so completely every aspect of the anomalies of the sexual sphere that the work now deserves the name of a treatise. It easily supersedes all previous attempts to treat this important subject scientifically; and it is sure to commend itself to members of the medical and legal professions as a scientific explanation of many social and criminal enigmas to which no work in English offers a solution. In one Royal Octavo volume, about 500 pages.

The work will be sold only by SUBSCRIPTION to MEMBERS OF THE MEDICAL AND LEGAL PROFESSIONS AT THE FOLLOWING PRICES:—

THE PUREST AND MOST ACTIVE PEPSIN
EVER INTRODUCED.

Webber-Pepsin, S. & D

STANDARD 1 TO 6000.

A Soluble, Non-Hygroscopic, Inodorous, Permanent Pepsin.

Dose: 1-8 to 2 Grains.

The Webber-Pepsin will completely digest 6000 times its weight of coagulated egg-albumen in accordance with the conditions of the U. S. P. test or that of the National Formulary.

It is not a Peptone-Pepsin, yet it is perfectly soluble, being free from mucus and inert putrescible matter, and is so palatable that the most fastidious patient will take it readily.

It is entirely free from septic contaminations, or other products of decomposition.

Physicians will appreciate these several advantages as possessed solely by the Webber-Pepsin.

Although further investigations based upon the Webber process have enabled us to produce Pepsin capable of digesting from 20,000 to 30,000 times its weight of coagulated egg-albumen, we have adopted 1 to 6000 as our standard for the Webber-Pepsin, because this already far exceeds the digestive power of any other Pepsin yet introduced, and especially because the production of a Pepsin of a still higher digestive power disproportionately increases its cost.

The Webber-Pepsin is offered in Granular and Powdered form, also in Scales, but unless otherwise specified we invariably furnish the GRANULAR form.

SYR. HYPOPHOS. CO., FELLOWS

Contains the Essential Elements of the Animal Organization—Potash and Lime;

The Oxidising Agents—Iron and Manganese;

The Tonics—Quinine and Strychnine;

And the Vitalizing Constituent—Phosphorus; the whole combined in the form of a Syrup with a **Slightly Alkaline Reaction.**

It Differs in its Effects from all Analogous Preparations; and it possesses the important properties of being pleasant to the taste, easily borne by the stomach, and harmless under prolonged use.

It has Gained a Wide Reputation, particularly in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs. It has also been employed with much success in various nervous and debilitating diseases.

Its Curative Power is largely attributable to its stimulant, tonic, and nutritive properties, by means of which the energy of the system is recruited.

Its Action is Prompt; it stimulates the appetite and the digestion, it promotes assimilation, and it enters directly into the circulation with the food products.

The prescribed dose produces a feeling of buoyancy, and removes depression and melancholy; *hence the preparation is of great value in the treatment of mental and nervous affections.* From the fact, also, that it exerts a double tonic influence, and induces a healthy flow of the secretions, its use is indicated in a wide range of diseases.

NOTICE—CAUTION.

The success of Fellows' Syrup of Hypophosphites has tempted certain persons to offer imitations of it for sale. Mr. Fellows, who has examined samples of several of these, ***finds that no two of them are identical,*** and that all of them differ from the original in composition, in freedom from acid reaction, in susceptibility to the effects of oxygen when exposed to light or heat, ***in the property of retaining the strychnine in solution,*** and in the medicinal effects.

As these cheap and inefficient substitutes are frequently dispensed instead of the genuine preparation, physicians are earnestly requested, when prescribing the Syrup, to write "Syr. Hypophos. ***Fellows.***"

As a further precaution, it is advisable that the Syrup should be ordered in the original bottles; the distinguishing marks which the bottles (and the wrappers surrounding them) bear, can then be examined, and the genuineness—or otherwise—of the contents thereby proved.

DÉVIATION DES RÈGLES.

ALETRIS CORDIAL (Rio) is, perhaps, THE MOST IMPORTANT REMEDIAL AGENT YET KNOWN. It is THE remedy for the wrongs of menstruation, by restoring normal functional activity to the uterine apparatus. PROLAPSUS, MENORRHAGIA, LEUCORRHEA, AMENORRHEA, DYSMENORRHEA, SUBINVOLUTION, METRITIS, OVARIAN NEURALGIA, etc., all yield to its beneficial influence. Physicians find a certainty in its action as a uterine tonic, that is peculiar to no other remedy. A special indication for its use IS THE DRAGGING SENSATION in the lower bowels. It quickly restores the strength and waning vitality of the chlorotic girls and pregnant women. Habitual miscarriage and the excessive nausea of early pregnancy are effectually prevented by its timely and continued use. In a word, it RESTORES TONE TO THE UTERINE SYSTEM, AND THUS RELIEVES ALL ABNORMAL CONDITIONS.

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE.

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal, and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, "**With Iron, No. 1**" while the same preparation, **Without Iron,** is designated on the label as "**No. 2.**"

In prescribing this preparation, physicians should be particular to mention "*COLDEN'S,*" viz., "*Ext. Carnis Fl. Comp. (Colden).*" A Sample of **COLDEN'S BEEF TONIC** will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

PARVULES

This is a new class of medicines (minute pills) designed for administration of remedies in small doses for frequent repetition in cases of children and adults. It is claimed by some practitioners that small doses given at short intervals exert a more salutary effect. THE ELEGANCE AND EFFICIENCY OF PARVULES, AND THE AVOIDANCE OF CUMULATIVE EFFECT, DEPEND ON OUR MODE OF PREPARATION.

THE DOSE of any of the Parvules will vary from one to four according to age, or the frequency of their administration. For instance, one Parvule every hour, or two every two hours, or three every three hours, and so on for adults. For children, one three times a day is the minimum dose.

Price, 25 cents per bottle of 100 each, or $1.10 for bottles of 500.

CALOMEL, Parv. . . . . 1-20 gr.
Med. Prop.—Alterative, Purgative.
DOSE.—One to two every hour. Two Parvules of Calomel, taken every hour, until five or six doses are administered (which will comprise but half a grain), produce an activity of the liver which will be followed by bilious dejections and beneficial effects that twenty grains of Blue Mass or ten grains of Calomel rarely cause, and sickness of the stomach does not usually follow.

PODOPHYLLINI, Parv. . . . . 1-40 gr.
Med. Prop.—Cathartic, Cholagogue.
Two Parvules of Podophyllin, administered three times a day, will re-establish and regulate the peristaltic action, and relieve habitual constipation, add tone to the liver, and invigorate the digestive functions.

ALOIN, Parv. . . . . 1-10 gr.
Med. Prop.—A most desirable Cathartic.
The most useful application of these Parvules is in periodic irregularities—Dysmenorrhœa and Amenorrhœa. They should be given in doses of one or two every evening at and about the expected time.
DOSE.—4 to six at once. This number of Parvules, taken at any time, will be found to exert an easy, prompt, and ample Cathartic effect, unattended with nausea, and in all respects furnishing the most desirable aperient and cathartic preparation in use. For habitual constipation they replace, when taken in single parvules, the various medicated waters, avoiding the quantity required by the latter as a dose, which fills the stomach and deranges the digestive organs.

"FOR OVER THIRTY YEARS the IMPERIAL GRANUM has been the leading prepared FOOD of this country, and it has acquired the reputation of being always uniform and reliable. During this long period of years its sales and popularity have constantly increased, and it is RECOMMENDED BY THE MOST EMINENT PHYSICIANS THROUGHOUT THE LAND. AT NO TIME HAVE THE SALES INCREASED MORE RAPIDLY THAN DURING THE PRESENT YEAR, nor has it ever seemed to give more universal satisfaction; and it is an undeniable fact that during this time IT HAS SAVED THOUSANDS OF LIVES, not only of

Nursing-Mothers, Infants and Children, but of Delicate, Infirm and Aged persons

who have required and sought nourishing and strengthening diet; and it

Has often proved the only FOOD the stomach would tolerate when life seemed depending on its retention;

Thus it will have satisfactory results in nutrition far into the future, because it is based on merit and proven success in the past.

"The good old Quaker house of JOHN CARLE & SONS, New York, established in 1817, have been the shipping agents for the IMPERIAL GRANUM ever since its first introduction into this country, and they write as follows: 'We recommend the IMPERIAL GRANUM in the strongest terms, having sold it for over thirty years, and having used it in our own families with such good results that we feel we cannot say too much in its favor.'"

The IMPERIAL GRANUM is sold by Druggists everywhere.

A WORD TO THE WISE.

CERTAIN ADVERTISEMENTS FROM TRADE RIVALS,

who fear the phenomenal success of

Van Houten's Cocoa

in America, contain innuendoes against it, and appeal to the authority of
DR. SYDNEY RINGER, *Professor of Medicine at University College, London, Author of the Standard "Handbook of Therapeutics."*

This eminent physician ACTUALLY writes as follows:—

"From the careful analyses of Professor ATTFIELD and others, I am satisfied that Messrs. VAN HOUTEN'S COCOA is in no way injurious to health, and that it is decidedly more nutritious than other Cocoas. It is certainly "Pure" and highly digestible

"The quotations in certain advertisements from my book on Therapeutics are quite misleading, and cannot possibly apply to VAN HOUTEN'S COCOA"

The false reflection on VAN HOUTEN'S COCOA *is thus effectually repelled, and the very authority cited to injure it has thereby been prompted to give it a very handsome testimonial.*

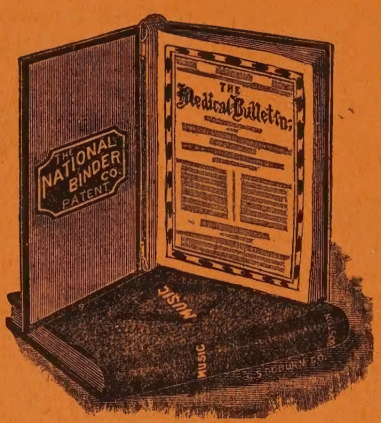
Bulletin Binders.



THE NATIONAL BINDER commends itself to the profession as possessing merits far superior to any similar invention.

FIRST. The **SOLID WOODEN BACK,** presenting an attractive appearance, corresponding to a permanently bound book, and in striking contrast to all other binders, with their soft, "mushy" backs, equally untidy on the table or library shelf.

SECOND. **NON-MUTILATION OF CONTENTS.** The journal is instantly but securely bound by the thin slats which run the length of the magazine, and yet can be removed at pleasure.

THIRD. The **SIMPLICITY OF ITS CONSTRUCTION.**

While the strength and simplicity of the binder is noticeable, it is also *very light in weight.* Professional men, and all who wish to preserve printed or written literature in a permanent, cheap, and attractive form, unite in their praise of what is destined to become a standard article as fast as known.

McARTHUR'S SYRUP

(Syr. Hypophos. Comp., C. P. McArthur.)

Is a standard and reliable preparation, as proved by the test of years.

The reason why it has attained this enviable reputation is because of its *chemical purity* and the *scrupulous care* taken in its preparation. It is not a conglomerate mass of polypharmacy, but embodies the valuable therapeutical properties of the hypophosphites of lime and soda, without other objectionable ingredients.

McArthur's Syrup has wonderful healing and tonic properties.

Used with great success in *Consumption, Tuberculosis, Scrofula, Cough, Brain Exhaustion, Alcoholism, Impotence, and General Debility.*

Endorsed by Prof. H. L. Byrd, and Prof. John S. Lynch, of Baltimore; J. Montfort Schley, M.D., of New York; Gertrude G. Bishop, M.D., of Brooklyn; John Dixwell, M.D., of Boston; F. Le Sieur, M.D., of Philadelphia, and many more Eminent Physicians.

Any Physician not familiar with McArthur's Syrup of the Hypophosphites Comp. (Lime and Soda), and willing to pay express charges, will receive a bottle free on application.

Sold only in 12-ounce bottles, never in bulk.

Send for pamphlet treating on the use of the Hypophosphites. Prepared expressly for Physicians' use.

ARISTOL is now widely used as an agreeable and effective dressing in all of the operations of major and minor surgery and in dentistry. It is invaluable in ulcerations of all kinds, and in burns, blisters and bed-sores. It adheres closely to mucous membranes and wound surfaces. (*Aristol and "Europhen-Aristol" a combination of both remedies, are supplied in ounces.*)

EUROPHEN is a complete substitute for iodoform and is a cicatrisant, of special value in specific lesions, catarrhal and ulcerative diseases and all surgical conditions formerly treated by the latter preparation. It has five times the covering power of iodoform and forms an impervious coating over denuded tissues. Europhen has a faint, agreeable odor resembling that of saffron. (*Supplied in ounces.*)

SALOPHEN is a new salicylo-phenolic derivative said to be so combined, chemically, as to constitute a safer and more effective remedy than either of its components, or any analagous preparation. The reports refer in the highest terms to its value in acute articular rheumatism and allied affections. Competent observers recommend it for trial. (*Supplied in ounces, tablets and pills.*)

SULFONAL induces physiological sleep, free from narcosis, and without sequelæ. It acts purely as a hypnotic and claims no analgic powers. Sulfonal is also of the highest value in the neuroses and is largely employed by neurologists. It is a perfectly safe and reliable remedy and its continuous use does not give rise to a drug habit. Sulfonal must be administered according to directions. (*Supplied in ounces, tablets and pills.*)

PHENACETINE continues to justify the high commendations of physicians, and it may properly be considered as the best of the modern antipyretics and anodynes. In *la grippe*, rheumatism, migraine, neuralgia and allied maladies it is a prompt, safe and effective remedy. Phenacetine, unlike the secret mixtures announced as analgesics and antipyretics, is a true organic derivative. (*Supplied in ounces, tablets and pills.*)
